Nelson Vergel

Chemical Engineer
Author
Testosterone: A Man's Guide
Co-author
Built to Survive

Search for a Cure: An Update

A chemical engineer who was diagnosed with HIV over 30 years ago, Nelson Vergel has worked in countless activist and research groups to advocate for HIV Cure research. He has been a featured speaker at Shanti for a few years and has a large online following with his non-profit PoWeRUSA.org and his column on TheBody.com.

He will be speaking via remote over the internet live on current research and the progress he has made in an exclusive webinar being held at Shanti Orange County. Live and interactive Nelson hold a Q&A after the informational session for any interested in expressing their questions or thoughts. More on NelsonVergel.com

Tuesday, September 20, 2016
